11/22/04 PM – Mr. Swinger (in Mike Zeto's absence) says that as long as storm water management and sewage are addressed, and properly managed and maintained, there should not be any problem with locating temporary housing at this site. However, he will send someone out to look at the site.

11/19/04 PM – Mr. Zambelli said that they do not have data for the immediate area of the site. However, there is mining at Hastings located 1 mile southeast of the site. Based on the location of the site along a highway and a creek, however, Mr. Zambelli believes it unlikely that there was mining activity at the site. The little mining activity in Wetzel County was generally on upland areas away from the highway and streams.
